General Assembly.

In the Senate nothing of consequence was done yesterday.

In the House, the matters of principal interest were, the resolutions of Mr. Davie and Mr. Rowles, offered some days since, in relation to the further extension of State aid to internal improvements. Mr. Davie's resolution pledging the Legislature to make no further appropriations was laid on the table, by very nearly a dead party vote, one or two democrats voting against laying on the table. Mr. Rowles' resolutions of very much the same character, pledging the State to meet all its bonds, to carry out its engagements with such Railroads as have performed the conditions under which they are entitled to aid by the present laws, and withholding aid in other cases, were taken up for consideration. Some discussion ensued, and some amendments offered, which indicate a considerable diversity of opinion, or shades of opinion on this all-important subj ct. The current of sentiment is manifestly against a further extension of State aid; but there appear to be differences as to the precise point at which the State liability should be unconditionally stopped. The question promises to afford a very large fund of discussion, and we may expect many speeches on it before the session ends.

State Fair.

The exhibition of Agricultural Implements, Icon, Vehicle and Harness will take place to-day. The stock of these articles in the country ought to be fully represented. Premiums will also be awarded to the fastest pacing mare or gelding, under the saddle, the fastest trotting mare or gelding, under the saddle, and to the best buggy mare or gelding.

The Mechanic's Fair Continues to draw well, notwithstanding the novelty has worn off. We noticed Monday evening a by Miss B. M. CAREY, of Campbell County, Tenn. 22 years, but she was followed by a beautiful foal It took the premium at the State Fair, and was far ahead of anything of the kind on exhibition at either fair. It was so well done that it resembled, and, at a short distance, could scarcely be distin-

guished from a painting. We noticed an addition to the Pianos, a hand some one from the manufactory of Steinway & Sons, having been entered by Mr. J. A. McClure. These instruments are becoming very popular.

M. Jackers & Co. have harnessed up their little iron horse, and we found it Monday night turning, one of Sedgebeer's mills, which ground admirably, Our friends Armstrong & Co. are Agents for the gale of these mills. Besides this mill they have on exhibition, "Barnhill's Seed Drill," "Sinclair & Maynard's patent screw propeller Straw and Fodder Cutter," and G. C. Miller's Eagle Steel Plough These are all useful articles, and deserve the attention of the farming community.

Mr. J. H. Kendrick's display of Chandeliers and other gas fixtures, has attracted much observation, They are truly elegant.

We have heretofore mentioned some of the articles exhibited by Mackenzia & Wilson, but omitted inadvertently those superior samples of Brittania Coffee Urns, Ten Pots, Covered Dishes, &c., which are of the finest quality and workmanship. In this department, McClure, Buck & Co. also make an exhibition every way worthy of the attention the ar-There are numerous other things to occupy those

who visit the fair, which we have not mentioned, because to do so would take more space than we can afford. They speak for themselves, however.

THEATRE .- Mr. and Mrs. John Drew close their engagement, and make their last appearance to-night. The entertainments are of the most interesting character, probably more so than any offered this season. "The Knight of Arva," and "The Conjugal Le-son," will be produced We expect to see the theatre crowded throughout on this occasion.

LOOK OUT FOR PICKPOCKETS .- On the arrival of the cars yesterday morning our old friend Mr. Thos. BATTE. who came passenger, on arriving in town, found himself minus his purse, containing about \$25, which was supposed to have been taken from his pocket as he was in the act of getting out of the cars at the depot. He informs us that a crowd, apparently preconcerted, pressed upon him at the depot, at which time he is satisfied his pocket was rifled. We are informed that yesterday evening just before the cars left, a gentleman had his pocket book stolen at the depot. Our citizens, and strangers attending the Fair, should be on the alert for these "sky-larks."

SIAMESE TWINS .- To-day and to-morrow are the last days that these wonderful phenomena will exhibit in our city; let no one neglect seeing them.

State Fair. - Second Day.

Owing to the unfavorable aspect of the weather, the attendance at the Pair on yesterday, was sma'l. The exhibition consisted of Farm Products, Fruh , Honey and fifteen entries in the misc llancous clas . The display, though I mited, embraced many valu ble specimens of the products of the State.

Mr. J. W. Dodge, of Cumberland county, exb'bited nine varieties of apples from his nursery on the Cumberland Mountains, that were exceedingly fine and do Mr. Dodge especial honor as a successful pomologist. It has become a settled opinion amongst the people of Tennessee that this climate es unfavorable for producing the finer grades of fruit, and that we shall ever be compelled to dep nd upon the North for our apples. Those who noticed the specimens of apples exhibited by Mr. Dodge, and by those J. C. Walker of Davidson county on yesterday, are prepared to believe that our climate is as favorable to fruit as grain, and that it only requires the proper manner of treating them to make good varieties and prolific yields.

The samples of wheat exhibited by Col. T. B Johnson and Mr. J. C. Owen, were the best specimens of this grain we have seen during the season, and are a credit to the intelligence of the gentlemen who raised it. The variety exhibited by Col. Johnson that took the Premium is known as the Pennsylvania B'ne Stem White Wheat.

of Davidson county, exhibited a lot of the largest white yams we have ever seen. We accord him a special notice and honorable mention, by selecting his from the many good specimens shown, as especially deserving a notice by the Reporter-Mr. Jones, also exhibited a lot of Celery that was also worthy of notice.

Decidedly the most interesting feature of the Second Day, was the exhibition of Gen. W. G. Haring's Blood Horses, consisting of twenty-four entries, embracing the flower of his stud of thoroughbred animals. This display was pronounced by gentlemen on the ground who are well qualified to judge, as the finest exhibition ever made by a single individual of Blood Horses; and a fete, that perhaps does not lay in the power of another private gentleman to make in the Union.

THE GREATEST INVENTION OF THE AGE. West's Patent Galvanic Cement For Roofing.

LENBERGER & Co., Rochester, Pa.

THE subscriber is now prepared to cover roofs of build-ings, with a new and belter article than ever before mown. The public are aware that our Government has d colentific men experimenting, and that it has been the ud. of Architects and Builders, for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a pernanent fixture. As yet, nothing has been attained without costing more than the people wish. The contraction, expansion and rusting of metal ruofs, are so great in changeable climates, that they become usele s, unless being repaired at great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofing, do not stand the tion of the weather, but they run when it is warm, and crack when frosty, and after one or two years become crumbly, and worthless; whereas, the inventor of the Galvanic Cement, has labored twenty years to combine articles to obviate those difficulties, and can testify from his g experience, and numerous testimonials from reliable sons, who have had his combination applied to their blings, that his Cement is the cheapest and best aticler ever before known. The combination of this Ce aent is such that it is calculated for entire new roofs, flat or sleep, cov-ering over old thingles without removing them; lining eavi-ticughs, seaming around battlements, chimneys and sky-lights. Covering car-tops, steamer-decks, &c. This Cement, by its non-conduction and galvanism, prevents metal roofs from rusting and unsoldering, and resists the extremes of heat and cold, better than any thing ever inented for entire roofs or for covering metal and the out eide of wood bu ldirgs, making them fire proof. Its ap-pearance is like slate; beautiful for the rich palace or the

imble cottage.

The undersigned having secured the right to the State of concisee, win sell rights of Territory, by Counties or owns, or reasonable terms.

The subscriber is also prepared to cover roofs of buildings, in any part of the State, at short notice. This Roof is now being put on in this city, for the bene fit of all concerned, and warranted to excel all other mode Roofing. The subscriber has ad his mode of Roofing tested as to its qualities, during the last year and a half in the city of Memphis, which has proved salis actory.

Mr. Bennett, has done some small amount of roofing for me in his peculiar way, with Cotton stuff, coated with a proparation the basis of which appears to be a Coal Tar. It is a very effectual and light roof, and appears to promise considerable curability, from the preservative qualities of the composition, which penetrates the gloth and protects is from the influence of the air and water. The Composition does not liquify and run from the effects of the heat of the sun in summer; nor does it harden and crack from the influence in the sold of winter, A. P. MERRIL.

ON TUESDAY, OCTOBER 27th, 1857. will offer for sale, on the premises, to the highest bidder bout 7000 Acres of excellent lands in Warren county They are gently un 'ulating, and the portions not cleared studded with fine cak, poplar, hickory, walnut, and other descriptions of timber, producing mast in abundance.— Charley's creek, an unfailing stream, furnishing sn abundance of water, runs through the centre of them, and there are, in addition, twenty fine Springs scattered of Corn, Wheat, Oats, all the small grains, and domestic grasses, and will compare favorably with the best Warren county lands. Producing grass spontaneously, in abunmee, there is no better range for cattle and sheep in the state. A portion of the lands are improved, there being State. A portion of the lands are improved, there being some eight or ten cultivated farms, with cottages, upon the tract, independent of the beautiful residence of Mr. Glascock. The whole body of them has, however, been recently surveyed and isid off in small tracts, containing from 100 to 800 acres, and fronting on a public road. In point of society the location has many advantages; churches, schools, and mills are convenient, and the Manchester and McMinaville Railroad, which is but seven niles distant, affords an outlet to market. The town of fcMinnville, the county seat, is but nine miles off, near which it is believed the great Southern University, to be which it is believed the great Southers University, to be established under the auspices of the Episcopal church, will be located; thus enhancing the value of all the lands in the neighborhood. The celebrated watering place, Beersheba, is but 25 miles distant. The healthfulness of this portion of Middle Tennessee is proverbial, it is the VALUABLE HOUSE AND LOT FOR SALE.
